NARF Post-Doctoral Investigator Award 2010

NARF announces their annual award which recognizes outstanding independent health/medical/biomedical research achievements by an Australian postdoctoral researcher at an early stage of their career. The intention of the Award is to recognize such achievement and to encourage the career aspirations of young Australian investigators in health/medical/biomedical research.

The NARF Postdoctoral Award for 2010 is AUD \$1500

Selection process:

The Awardee is determined by a committee of NHMRC Fellows, based on consideration of the applicant's: (a) CV; and (b) single best first*- or senior-authored publication.

Eligibility:

The applicant must be:

Australian citizen or permanent resident (please state in application)

Within first 5 years** (at September 10th, 2010) of receiving their research doctorate.

How to apply:

Applicants should forward an *electronic* copy of their curriculum vitae, including a full list of published works (authors, title, journal details), and a PDF copy of their SINGLE best first-authored work over the past five years, including a statement of its significance and impact. The CV should include all academic and research achievements, and the date of the doctoral award. Only electronic copies of the application will be accepted and late applications will not be considered.

Applicants should ask for two academic references to be confidentially emailed directly to the NARF Secretary, Assoc Prof Kay Double, as below.

Deadline: Applications must be submitted by Friday, September 10th, 2010 to:

NARF Secretary

Assoc Prof Kay Double

Neuroscience Research Australia, Sydney

narfaward@neura.edu.au

The Awardee will be notified by the end of September and officially announced at the NARF Symposium during the Australian Health and Medical Research Congress in Melbourne on November 17th 2010. The Awardee will be invited to give a presentation of their work at the Symposium.

*equal first authorship papers are eligible if clearly marked as such in the published manuscript.

**or full-time equivalent. If applying in this category, please detail how your post-doctoral career is equivalent to 5 years full-time research, for example, provide details of parental leave taken.
